

ACCREDITATION BASIC (ELIGIBILITY) REQUIREMENTS

REQUIREMENT	CRITERIA TO FULLY MEET THE REQUIREMENT / DOCUMENTATION REQUIRED
1. Program duration: The program is equal to or greater than 21 months.	As evidenced by the curriculum, field experience required to graduate, and progress documentation on recent graduates, the program requires at least 21 months or more to complete.
2. Evidence of Completed Cohorts: At least 2 cohorts of residents have completed the Program within the past 5 years.	As evidenced by the number of residents that have been accepted to the program and completed the program, at least two cohorts have completed the program before the program applied to the accreditation process.
3. Predominance of field work: It is documented that the majority of the residents' time (68 weeks) is spent in field work (defined in Appendix).	Program residents must spend a minimum of 68 weeks engaged in epidemiologic practice (field work defined in Appendix).
